8. [ ] Mr. Robert Blum, Senate Foreign Relations Committee staff, called and asked when the OSS material selected for declassification would be ready for transmittal to the Committee. I told Mr. Blum that the mechanical aspects had been completed and that the papers were being processed now for final approval. I told him this process would take a week or so. Conversation closed on the note that if final determination has not been made by this time next week, I will call him.

25X1

9. [ ] I talked to Mr. Marion "Buddy" Bishop, Administrative Assistant to Representative Jamie L. Whitten (D., Miss.), who asked if Whitten's itinerary was progressing smoothly. I told him that there had been some problem of scheduled social events but they appear to have been worked out satisfactorily through Mr. Preston. I told Mr. Bishop that I would keep him advised if anything unusual should come up.
